

=====
AUTofs

=====
CYCLE AUTofs

SOLARIS 9: /etc/init.d/autofs stop; /etc/init.d/autofs start
SOLARIS 10: svcadm restart svc:/system/filesystem/autofs:default

AUTofs Files

/etc/auto_master -- autofs master map. Contains share locations and
their corresponding map file
/etc/auto_<name> -- map file for a specific shared directory. Each
share needs its own map file
